Career Objective

Motivated Computer Science student with strong technical skills in software development, data structures, and web technologies. Interested in applying programming expertise and creative problem-solving abilities in dynamic roles to build impactful solutions and grow as a technology professional.

Quick Overview

- Computer Science student with a strong foundation in programming, data structures, and software development.
- Experienced in Python, C, C++, Java, and web technologies (HTML, CSS, JavaScript).
- Skilled in video editing and graphic design tools.
- Passionate about learning emerging technologies and building innovative projects.

Education

- Assam University**, Integrated B.Sc.-M.Sc. in Computer Science Aug 2024 – June 2029
- Pursuing a rigorous integrated program combining undergraduate and postgraduate studies in Computer Science
 - **Key Coursework:** Programming in C and Python, Data Structures, Computer Architecture, Object-Oriented Programming (C++, Java), Web Design, Cyber Security
- Maharishi Vidya Mandir**, Higher Secondary and Senior Secondary Education March 2023
- Completed schooling with a focus on Science and Mathematics
 - Developed strong foundations in analytical reasoning, problem-solving, and technology fundamentals

Projects

- AI Personal Assistant** [GitHub Repo] [↗](#)
- Developed a Python-based personal assistant inspired by JARVIS, integrating voice commands, automation scripts, and basic machine learning features
 - Tools Used: Python, SpeechRecognition, pyttsx3
- Full-Stack Portfolio Website** [GitHub Repo] [↗](#)
- Built a responsive personal website to showcase projects, resume, and contact information
 - Tools Used: HTML, CSS, JavaScript, [Your Backend Tech]
- Departmental Question Paper Platform** [GitHub Repo] [↗](#)
- Created a web platform for students to upload, review, and archive previous year question papers (PYQs) for centralized and easy access
 - Tools Used: HTML, CSS, JavaScript, Python

Technologies

Languages: C, C++, Python, Java, HTML, CSS, JavaScript

Technologies: DaVinci Resolve, Adobe Photoshop, Adobe Illustrator, Git, Basic UI/UX Design
